Day of the Visit - Guidance

20 July 2020 – FINAL VERSION

This document is guidance for things to think about on the day of your visit to a family. It doesn't need to be uploaded or casenoted. It is to support you to think about what and how to prepare on the day you visit a family to help keep you and the family as safe as possible during COVID as we return to face-to-face work.

This list is not exhaustive, and you will need to make judgements with your line manager about managing risk depending on the unique circumstances of each family.

This checklist must be used in conjunction with the Camden and Islington Public Health Guidance on Home Visits. This on the Guidebook here <https://ascpractice.camden.gov.uk/early-help-guide/family-early-help-covid-guidebook/fscf-procedures-during-covid/face-to-face-and-home-visits-guidance/#main>
