

How to look up a tenant's managed payment date and amount on the UC Portal

To check a tenant's assessment period and recent managed payments:

1. Select the Payments tab on the Portal.

2. A 'search for payment' screen will appear. Search by payment reference if you have it. The date boxes are optional; you can probably ignore these for now as only recent data is loaded. If you do insert dates, you can select one date or a range. You can also search by date and no pay reference if you want to see all payments made on that date.

3. A search by pay reference will yield a list of each payment date, the assessment period it covers and the amount. Click the pay reference to view the assessment period the payment covers:

Payment reference	Name	Postcode	Payment issued	Amount
