

## Integrated Care MDT – How to make a referral

Please note that for all referrals you will need to fill in the **referral form** and send to the MDT Co-ordinator : [mdt.admin@nhs.net.cjism.net](mailto:mdt.admin@nhs.net.cjism.net)

Please ensure you have recorded clearly that the client has a Camden GP, lives in Camden and that you have received consent from client to share records. If client is unable to consent you have overridden consent for any reason, please state the reason why e.g best interests, vital interests, public interests etc. Also record any other information which would be helpful to the MDT in providing appropriate support.

**Please note that you will be expected to attend the meeting and present your case to the panel.**

Once the administrator receives your referral, they will send you an invite (now a Teams virtual Invitation) detailing your time slot (from 09:30 hrs on a Wednesday).

Following the presentation, an agreed action plan will be sent to you and you will be asked to attend on further review dates, if applicable.

**Please copy Kate Dale and Martin Hampton into your emails.**
