

Childcare support

Good Work Camden's childcare support aims to support parents to (re)enter sustainable employment and/or training.

Making childcare more affordable will support the council's objective of helping those furthest from the labour market into rewarding work.

- For residents interested in accessing employment, training or education, Good Work Camden will fund your childcare.
- Good Work Camden can provide childcare support for up to 1 months once you're in work.
- Childcare funding can also be used for when you need to go to an interview, attend training, or classes, and other job search activity.
- Good Work Camden childcare support can be used to supplement existing childcare, to support you to increase your hours at work.

To receive childcare funding, you will need to:

- Be involved in active job search
- Confirm existing childcare support
- Seeking or be involved with training and/or education
- Be unemployed or economically inactive
- Assessed to have childcare support need

To access the Childcare funding, contact goodwork@camden.gov.uk
