Addendum to Child and Family assessment

The **Child and Family Assessment** form is social worker's report to ICPC, 1st LAC review and Initial CIN Review Meetings.

Addendum to Child and Family assessment form has been created to allow workers to update to the report (ie C&F Assessment) where circumstances / concerns may have changed since original assessment completed (or if there has been a longer than expected time delay since the C&F assessment was completed – often the case with unborn children).

Addendum to Child and Family assessment form can be created within the ICPC, 1st LAC review and Initial CIN Review Meetings episodes as a **non-mandatory** form.

(The following screenshots show how workers should access **non-mandatory** forms within episodes.)
