Immunisation

All children in the UK are offered immunisation to be protected against preventable infectious diseases. If you do not have any documentation of previous immunisation, you are recommended to get catch-up vaccinations following the Public Health England guidelines. You will need 3 visits, each with a gap of 4 weeks and you will be given 6 vaccines in total. You may also be recommended further vaccination depending on your needs. Vaccines are important to protect you, your community and your future family. You will need to book the appointments with your GP/Practice nurse.

Infectious disease screen

عد الطلب

You will be offered Tuberculosis and infectious disease screening due to a higher risk of exposure to infectious diseases in your home country or on your journey.

You will receive an appointment letter in the post. If you do not hear from the hospital within 3 months, please contact Jackie Touray on 0203 447 7876 or jackie.touray@nhs.net.

Sexual health

Sexual health clinic

You will be offered an appointment at the specialist UASC sexual health

format upon request. Please email communications.cnwl@nhs.net

You may have been through a difficult journey to the UK. At your initial health assessment, you will not be asked to tell your story or share anything you don't want to. You will be asked questions to understand how your mental health is affecting you now (e.g. regarding sleep, diet, worries etc), and how we can support you. If you want to, you can be referred to 1-1 therapy. You are free to change your mind at any time and you can speak to your social worker

If you are an Unaccompanied Asylum-Seeking Child (UASC) or have lived outside of the UK for a longer period of time, we want to ensure that you have the same health opportunities and services as anyone born and raised in the UK.

includes addressing the following:

GP registration

Everyone needs a GP local to their home address.

Dentist

All children in the UK are recommended to have a check up with a Dentist on a 6-12 monthly basis.

Optician

All children in the UK are recommended to have annual or biannual vision checks.

Audiology

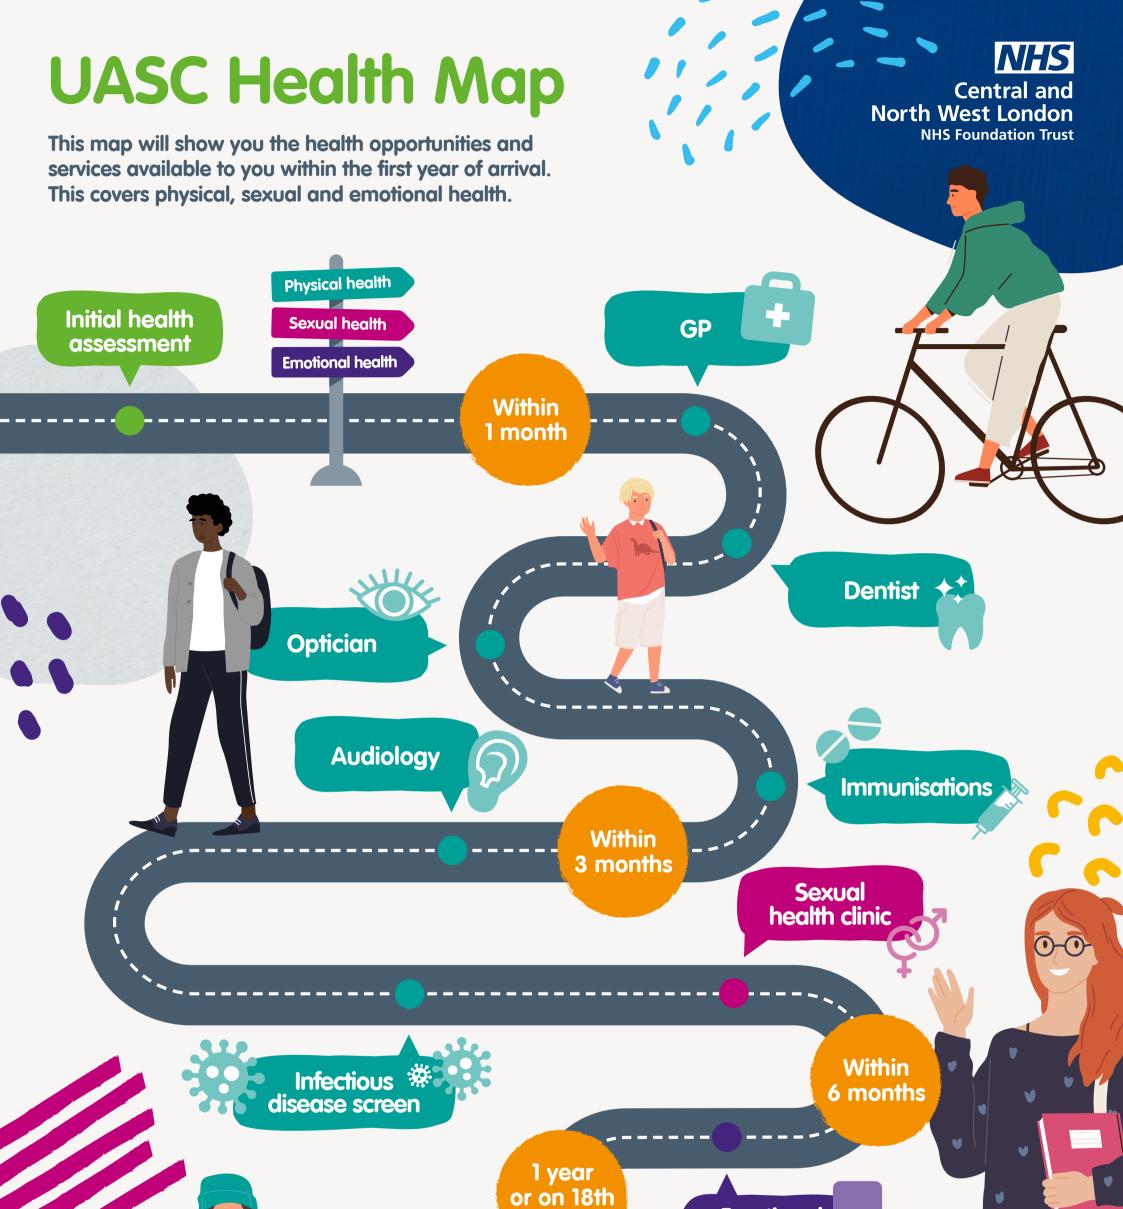

You will be offered a hearing test due to a high risk of exposure to head trauma, infections and/ or loud noises during your asylum journey. If there are any concerns, we will recommend you to be referred to a specialist audiology service.

clinic in Archway. This is because you may not have had any sexual health and relationship education, and it is important that you are aware of sex and the law in the UK, and the services available to you, such as screening, contraception and advice.

or keyworker about this.

Review health assessment (RHA)

This health assessment in your home or in the clinic by a Child Looked After Specialist Nurse. We will review the plan made at your initial health assessment, and help you to make a new plan.
