## Purpose of dashboard

To provide an overview of activity related to Care Leavers.

For definitions of terms and cohorts used in this dashboard (e.g. 'Relevant Care Leavers'), please see the 'Glossary of Terms' document.

The visuals are grouped into the pages of the report on which they appear.

## Summary

Below is a description of each of the visuals shown on the 'Summary' page of the report and where they take their data from.

### Slicers

#### Care Leaver Category

Allows the user to filter the dashboard to show data only for cases allocated to the selected category or categories.

#### Is Allocated

Allows the user to filter the dashboard to show data only for cases that are allocated.

#### Allocated Team

Allows the user to filter the dashboard to show data only for cases allocated to the selected team or teams.

#### Age

Allows the user to filter the dashboard to show data only for cases who are currently of the selected age or ages.

#### Is/was UASC?

Allows the user to filter the dashboard to show data only for cases who are currently or have previously been an unaccompanied asylum seeking child.

#### Clear all slicers

A button to reset all slicers to remove all selections.

### Relevant Care Leavers

A card showing the number of Relevant Care Leavers **today**.

#### *Drill-down behaviour*

The user can right-click on the figure to drill-down to see a list of the Relevant Care Leavers **today**.

### Former Relevant Care Leavers

A card showing the number of Former Relevant Care Leavers **today**.

#### *Drill-down behaviour*

The user can right-click on the figure to drill-down to see a list of the Former Relevant Care Leavers **today**.

### Qualifying Care Leavers

A card showing the number of Qualifying Care Leavers **today**.

#### *Drill-down behaviour*

The user can right-click on the figure to drill-down to see a list of the Qualifying Care Leavers **today**.

## Eligible Care Leavers

A card showing the number of Eligible Care Leavers **today**.

### *Drill-down behaviour*

The user can right-click on the figure to drill-down to see a list of the Eligible Care Leavers **today**.

## Care Leavers with a current allocation

A card showing the number of Care Leavers **today** who are allocated to a team.

### *Drill-down behaviour*

The user can right-click on the figure to drill-down to see a list of the Care Leavers **today** who are allocated to a team.

## “Care Leavers” with no CLA History

A card showing the number of Care Leavers **today** with no CLA history.

### *Drill-down behaviour*

The user can right-click on the figure to drill-down to see a list of the Care Leavers **today** with no CLA history.

## % Care Leavers in Touch

A gauge showing the percentage of Care Leavers **today** (excluding Qualifying Care Leavers) who are in touch.

### *Drill-down behaviour*

The user can right-click on a column to drill-down to see a list of the Care Leavers **today** (excluding Qualifying Care Leavers).

## % Care Leavers in suitable accommodation

A gauge showing the percentage of Care Leavers **today** (excluding Qualifying Care Leavers) who are in suitable accommodation.

### *Drill-down behaviour*

The user can right-click on a column to drill-down to see a list of the Care Leavers **today** (excluding Qualifying Care Leavers).

## % Care Leavers in Edu, Emp or Training

A gauge showing the percentage of Care Leavers **today** (excluding Qualifying Care Leavers) who are in education, employment or training.

### *Drill-down behaviour*

The user can right-click on a column to drill-down to see a list of the Care Leavers **today** (excluding Qualifying Care Leavers).

### Care Leavers with up to date visits

A column chart showing the percentage of Care Leavers **today** who are up to date with their visits.

See 'Definitions' document for details on what is a Visit and when they are/are not up to date.

#### *Drill-down behaviour*

The user can right-click on the figure to drill-down to see a list of Care Leavers **today**. The drill-down table includes a column which indicates which children in the cohort are/are not up to date with their visits.

### Care Leavers with up to date Pathway Plan

A column chart showing the percentage of Care Leavers **today** who are up to date with their Pathway Plans.

See 'Definitions' document for details on what is a Pathway Plan and when they are/are not up to date.

#### *Drill-down behaviour*

The user can right-click on the figure to drill-down to see a list of Care Leavers **today**. The drill-down table includes a column which indicates which children in the cohort are/are not up to date with their Pathway Plans.

## Demographics

### Slicers

#### Care Leaver Category

Allows the user to filter the dashboard to show data only for cases allocated to the selected category or categories.

#### Is Allocated

Allows the user to filter the dashboard to show data only for cases that are allocated.

#### Allocated Team

Allows the user to filter the dashboard to show data only for cases allocated to the selected team or teams.

#### Age

Allows the user to filter the dashboard to show data only for cases who are currently of the selected age or ages.

#### Is/was UASC?

Allows the user to filter the dashboard to show data only for cases who are currently or have previously been an unaccompanied asylum seeking child.

#### Clear all slicers

A button to reset all slicers to remove all selections.

## Ethnicity

A bar chart showing the number of Care Leavers **today** grouped by the child's ethnicity.

### *Drill-down behaviour*

The user can right-click on any of the bars to drill down to see a list of the Care Leavers with the selected ethnicity.

### *Behaviour on click*

The user can click on any of the bars. This will cause the other visuals on the page to highlight the proportion of that visual with the selected ethnicity.

## By Sex (as per Health System)

A column chart showing the number of Care Leavers **today** grouped by what is recorded in the 'Sex (as per Health System)' field in Mosaic.

### *Drill-down behaviour*

The user can right-click on any of the bars to drill down to see a list of the Care Leavers with the selected sex (as per health system).

### *Behaviour on click*

The user can click on any of the column. This will cause the other visuals on the page to highlight the proportion of that visual with the selected sex (as per health system).

## KPIs

The 'KPIs' page allows the user to select a Care Leaver related Key Performance Indicator (KPI) and see the performance on that KPI plotted over the last 3 months.

## Slicers

### Key Performance Indicator

Across the top of the page is a red slicer in the form of a drop-down box, which allows the user to select from a range of key performance indicators. Once the user has chosen an indicator they need to click the 'Go' button to the right of the slicer to cause the chart below to refresh and show the selected indicator.

The results shown are as they were on a snapshot date. This is the final day of each month shown **except** the most recent result (the one furthest to the right on the chart) which is as at **today**.

### Care Leaver Category

The 'Care Leaver Category' slicer on the left-hand side of the page allows the user to filter the key performance indicator to show only cases who were/are the selected category or categories on the snapshot date. This is the final day of each month shown **except** the most recent result (the one furthest to the right on the chart) which is as at **today**.

For instance, if the user selected 'a) Relevant child', 'b) Former relevant' and 'd) Eligible' and looked at the September 2023 result, that result will only include cases who were aged Relevant, Former relevant or Eligible as at 30<sup>th</sup> September 2023.

The slicer is too narrow to allow all categories to be displayed in full. However, the user can 'pop-out' the slicer to fill the screen for easier use. This is done by hovering over the slicer and clicking on the icon that looks like 2 squares with an arrow in the top right-hand corner. Having 'popped-out' the slicer, the user can click 'Back to report' to return to the report screen.

### Age

The 'Age' slicer on the left-hand side of the page allows the user to filter the key performance indicator to show only cases who were/are the selected age or ages on the snapshot date. This is the final day of each month shown **except** the most recent result (the one furthest to the right on the chart) which is as at **today**.

For instance, if the user selected '4', '5' and '6' and looked at the September 2023 result, that result will only include cases who were aged 4, 5 or 6 as at 30<sup>th</sup> September 2023.

### Allocated Team

The 'Allocated Team' slicer on the left-hand side of the page allows the user to filter the key performance indicator to show only cases which are/were allocated to the selected team or teams. The allocated team is the team to which the child's allocated worker belonged on the snapshot date. This is the final day of each month shown **except** the most recent result (the one furthest to the right on the chart) which is as at **today**.

For instance, if the user selected 'CSSW Highgate CIN Team' and looked at the September 2023 result, that result will only include cases who were allocated to that team as at 30<sup>th</sup> September 2023.

The slicer is too narrow to allow all team names to be displayed in full. However, the user can 'pop-out' the slicer to fill the screen for easier use. This is done by hovering over the slicer and clicking on

the icon that looks like 2 squares with an arrow in the top right-hand corner. Having 'popped-out' the slicer, the user can click 'Back to report' to return to the report screen.

### Key Performance Indicators included

The following Key Performance Indicators are available on this screen. For a full definition of each performance indicator, please see the separate 'Key Performance Indicator Definitions' document.

#### % Care Leavers in Education, Employment or Training

The percentage of Care Leavers who are in Education, Employment or Training.

#### % Care Leavers in suitable accommodation

The percentage of Care Leavers who are in suitable accommodation.

#### % Care Leavers in Touch

The percentage of Care Leavers who are in touch.

#### % Care Leavers with up to date pathway plans

The percentage of Care Leavers who have up to date pathway plans.

#### % Care Leavers with up to date visits

The percentage of Care Leavers who have up to date visits.
